

ESIS' Construction Practice

Risk Management Services for Contractors

ESIS' Construction Practice offers fully customized claims and risk management services for contractor practice programs, including construction managers, general contractors and specialty contractors. At ESIS, we take a holistic approach to help you achieve the best possible outcomes.

Our highly experienced team will work collaboratively with you to implement an exceptional claims management program as well as a full range of consulting services to assess and avoid construction-related risk.

Our Approach

Dedicated Construction Expertise

ESIS' Construction Practice focuses exclusively on construction risks. Our team understands construction risks and has the knowledge and skill to develop effective solutions.

Flexible Solutions & Superior Service

We work collaboratively with you to develop a customized program that meets your needs, and we are committed to delivering exceptional service.

Focus on Safety

Our Our risk control and safety consultants will work proactively with your safety team to help assess risks and recommend measures you can take to help protect your workers from injury.

Efficient & Effective Claims Management

ESIS' claims and medical management professionals are dedicated to the needs of your injured workers. We can help you structure an environment where injuries are treated promptly and workers are returned to the job as early as possible.

Continual Improvement

ESIS offers extensive analytic and reporting capabilities to measure performance, detect beneficial and adverse trends, and identify opportunities for improvement. We then work with you to apply best practices in an ongoing effort to achieve better program performance.

Construction Risk Management Services

At ESIS, we have the right people, products and tools to effectively manage construction-related workers compensation, general liability, and auto liability claims and help you better control construction risks and losses.
