

# ESIS Digital Workbench

ESIS®

At ESIS, we appreciate the value of craftsmanship. The tools we use, and the knowledge we acquire, directly impact our clients and the way you conduct business. That is why we put so much thought into developing the right tools for the right tasks. We are continually seeking ways to improve and innovate to help you move forward and grow your business.

## **A Holistic Approach to Managing Your Data**

---

Our consultative approach to claims risk management is enhanced through the use of the *ESIS Digital Workbench*. We provide a holistic platform to access and exchange information, examine broader trends, and benchmark key metrics in an effort to evaluate program health and direction.

The ESIS Digital Workbench consists of various technological components that our professionals use, which are integrated into a purposeful and sophisticated process workflow. Effective utilization of these tools, combined with our skills, results in a comprehensive value-added approach to interpreting and managing data, enabling you to make more informed business decisions.

## **Key Components**

---

### **Quality Data Management**

- Intake/First Notice of Loss (FNOL)
- Carrier data/policies
- Employer data
