

## Stay OSHA compliant

Actively manage OSHA compliance using Aclaimant, the ESIS OSHA tool.

### Being Proactive Pays

Empower your team to drive productivity and reduce the total cost of OSHA fines with a workflow tailored to ESIS customers, and built to deliver insights and results. ESIS has helped mold the process of tracking, evaluating, and documenting return-to-work events, and population of the OSHA 301 based on information already loaded into the ESIS GRA claims system. Aclaimant delivers a holistic and data-driven solution for OSHA oversight.

#### **DID YOU KNOW?**

The average OSHA fine is \$15,625. Don't get caught with unexpected and avoidable fines.

A Chubb Company

## Powered by Aclaimant, the ESIS OSHA tool can:

- **Take “Work” out of Workflows:** Digitize incidents, OSHA recordables, and return-to-work events. Seamlessly generate and update OSHA 301, 300, 300a without manual data calculations.
- **Resolve Recordability:** The power of AI and Machine Learning help identify OSHA recordable events, allowing your team to prioritize which OSHA events to focus on to get your workers back to work faster.
- **Ace in on Accuracy:** Access all incidents entered into GRA, and group by location with standard OSHA workflows. Finalize OSHA filings with digital signature and integration with the OSHA ITA system, with the push of a button.

## About ESIS, a Chubb Company

ESIS was one of the first organizations to manage workers compensation claims on a third-party basis 70 years ago. Today, the company provides a full range of sophisticated risk management services, including workers compensation, liability, and disability claims management. These primary services are further supported by their extensive managed care offering, innovative catastrophe services, benchmarking capabilities, recovery services, Special Investigations Unit (SIU), risk control, and litigation management.

## About Aclaimant

Aclaimant was founded on the belief that everyone has the right to be a better risk and protect what matters most. As the pioneer of Active Risk Management, Aclaimant enables ESIS customers to digitally track and manage OSHA recordable events, pinpoint OSHA cost drivers to avoid fines, and improve team productivity. This transforms how ESIS’s customers can proactively manage data, people, and processes through leading workflow capabilities in workplace safety, OSHA management, and analytics. Thousands of safety and risk management professionals rely on Aclaimant daily to achieve better outcomes.
