

## *The Secret is Out...*

**Is litigation affecting your company's brand, reputation, and bottom line?**

*ESIS' can help reduce litigation and the associated costs.*

Even though only about 2% of litigated claims go to trial, the cost of litigated claims drives allocated loss adjustment expenses. ESIS' claims professionals work to avoid litigation from the start of a claim and carefully manage strategy and budget when litigation cannot be avoided.

Our results-driven approach includes:

#### Suit Avoidance

- Reduce friction through timely and detailed communication with all parties
- Leverage predictive modeling to identify claims with a high litigation potential
- Utilize Alternative Dispute Resolution and mediation techniques to resolve claims outside of the courtroom

#### Litigation Management

- Understand clients' specific goals for each litigated claim
- Capitalize on the expertise of our seasoned claim specialists to establish a litigation management plan
- Use the right attorney – not just the best firm – for each suit

#### Cost Containment

- Collaborate on litigation strategy with our client and defense counsel
- Utilize the latest technology to review and manage legal bills
- Adjusters are in the driver's seat regarding expenses

**The best way to manage litigation is to prevent it.**
