We are efficient and effective, deploying highly skilled claims professionals, state-of-the-art technologies, and proven processes to help our clients optimize outcomes and accelerate claim resolution.

We handle everything from small homeowners claims, to commercial loss inspections, business interruption and large complex claims adjustments – ensuring the property claims specialist has the right skill set and experience to handle each claim.

ESIS provides comprehensive property claims services, including:

- 24/7 Emergency claim intake and claim hotline
- Full adjustments
- Appraisals & Estimates
- Property desk administration
- Task assignments
- Inspections and valuations

Experienced Adjusters, Always Raising the Bar

Our property claims team is highly skilled with an average of 20 years of experience -and we constantly keep our staff on the cutting edge by investing in ongoing education and development.

Our network of field adjusters focus on handling the most challenging claims, leveraging the expertise of some of the world's premier loss adjusting professionals, with an average of more than 25 years of experience. Our field team works in lockstep with our own in-house adjusters.

Technology Optimizes Estimating, Valuations and Response

Our deep expertise combines with technology to ensure a keen analysis of property claims, including loss estimates and property valuations. In addition, we also utilize the latest tools, including digital photography and drones, to ensure prompt

and thorough response to even the most challenging property losses. Other highlights of our technology capabilities include but are not limited to:

- Proprietary predictive analytics, which enable us to identify claims with the potential for adverse development or subrogation – giving our adjusters data-driven insights and foresight they use to take timely, strategic action to benefit our clients
- Global Risk Advantage® (GRA), our proprietary Risk Management Information System, provides 24/7 real-time access to financial analyses, adjuster notes, claim documentation and flexible reporting modules
- ESIS Advanced Analytics in Action, our consultative and customized data analytic and predictive modeling platform, provides extensive quarterly analysis of multiple program aspects and metrics enabling clients to identify emerging trends and track reserve adequacy, loss costs, and more.

- Innovative platforms, such as Xactimate and CoreLogic, enable real-time decision making and reduce claim durations.

ESIS stands out from other property TPAs for our careful selection of the best-qualified complex claim adjusters: Professionals who understand the client's business, nuances of our client's industry, and the intricacies of the policies involved. Our desk adjusting staff supports our field team with unparalleled knowledge and support.

ESIS Specialty utilizes a client-centric approach to managing claims and risk for self-insureds, carriers, reinsurers, MGAs and PAs, captives, risk retention groups and London markets
